**Subject:** School Shirts

Hi Marek,

Here is a [picture of our students in their new shirts](#), these thanks to your friend and please give him or her our thanks for this. It was taken at the Century Hotel in Siem Reap - \$120 per night room cost, big beautiful pool, lots of staff. We all went there to hear a talk by the general manager on what skills were needed to work there. It was a good talk and our students looked very professional, as you can see.

Our school had a 100% success last year, Marek. 40 students enrolled, all 40 graduated and all 40 are working in a job with a future! Cost per student was \$800 for 2016.

Cheers,  
Roger

### **Roger Garms – JHP report – 15.2.2017**

Hi everyone,

The JHP buildings and gardens look great. All of last year's projects are well done. The teachers say that the new class is the brightest ever. They are over their homesickness (it's been 6 weeks now since they left home) and know now they can learn the material. They are happy to be making friends. The garden production is up. Every student is now boarding and they are eating well.

The best report is from the recently graduated 5th. class. As always, every one was placed in a job. Even better, all 40 students we enrolled graduated - no drop outs. This is a new personal record for us. That is the best measured outcome of any project I've ever been part of. I have some ideas about how we should compensate the teachers for the best job ever which I will tell you at our March meeting.

Friday JHP students will all wear the new shirts that Marek's friend funded when we go to a big hotel in Siem Reap. The manager there will give them a talk about what skills are needed to work at the hotel. They should make a sharp impression with their nicely tailored shirts.

It is 84 degrees and breezy. Wish you all were here.

Roger
